GOLF CONSUMABLES RANGE

Aztec Chemicals

SPORTS LINE

Sports Line is a blend of high quality pigments, resins, hardeners and fast drying solvents. Sports Line is suitable for use on Grass, Artificial Grass, Agra, Tarmac, Concrete and all other hard surfaces. Sports Line is available in the following colours:

WHITE, YELLOW, RED, BLUE, GREEN, BLACK, ORANGE.

Available in 750ml aerosols

Axis Copper Anti Seize Compound

Aztec Chemicals

Product available in:
500ml Aerosol
12.5 Kilo Tub

Axis Copper is a specially formulated metallic compound, blended with extreme pressure lubricants designed to withstand both high and low temperatures. Axis Copper will not dry, harden or erode, even under extreme conditions including ice, snow and salt water. This product is effective as a grease at a constant temperature of $+150^{\circ}\text{C}$, intermittent temperatures of $+230^{\circ}\text{C}$, and as an anti-seize at temperatures of up to $+800^{\circ}\text{C}$. Axis Copper has excellent lubricating qualities, lengthening the life of nuts, bolts, screws, shackle pins, wheel and exhaust manifold studs. This product is ideal for use on boiler components, steam vessels, kilns and incinerators. Axis Copper will reduce friction wear and prevent seizure, corrosion and pitting. Axis Copper contains no silicones and is safe on most plastics and metals.

NU CELL Battery cleaner & protector

Aztec Chemicals

**Product available in:
500ml Aerosol**

Nu-Cell has been formulated for use as cleaner and protective coating for batteries. Nu-Cell is a combination of aliphatic solvents, surfactants, emulsifiers, inhibitors and a pH indicator, which together provide a rapid visual indication of the battery condition. Nu-Cell restores batteries to their original condition by dissolving grease and grime, instantly dissolving the corrosion commonly found on battery terminals. Nu-Cell has been designed to eliminate the potentially corrosive and damaging effect of battery acid, by immediately changing colour to bright red upon contact with acid, thereby pinpointing leaks or fractures in battery cases. Nu-Cell is ideal for the cleaning and protection of emergency back up batteries and communication systems.

LEVER

Penetrating Oil Lubricant

Aztec Chemicals

Lever has been developed to deal with all types of problems of seizure caused by corrosion. Lever is capable of dealing with the most severe corrosion and penetrates leaving a protecting lubricant film even in the closest of tolerances.

Lever will assist easy reassembly. Lever will climb vertical surfaces by capillary action making it ideal for awkward overhead jobs.

Lever is ideal for stripping down scaffolds, clips and acro-props. Lever contains special residual lubricants which will not evaporate, thus preventing further seizure.

Product available in:

500ml Aerosol

5 Litre Tin

15 Litre Tin

210 Litre Drum

AWAX

Anti Corrosion Coating

Aztec Chemicals

Product available in:
500ml Aerosol

Awax has been developed as an anti-corrosion coating which is simple to apply and is easily detected.

Awax contains moisture displacers combined with a UV stable pigment designed to protect exposed metals. Awax sprays on thinly, then thickens rapidly to create a wax film which may be used on wet or dry surfaces, giving a durable finish which is water, steam, acid and alkali resistant.

Awax is safe to use on all metals and can be easily removed with Aztec's 'Task' heavy duty degreaser.

Awax is recommended for use on exposed plant machinery, newly machined metals or as a permanent anti-corrosion coating on enclosed bodywork or box section metals.

Aztec Chemicals

PHETAM

Oil Resistant First Aid Bandage

Product available in:
5cm x 2m Bandage

Phetam is a professional bandage, that adheres only to itself, and not to skin or hair. Phetam is produced from 100% cotton, and can be torn to the required length. It is ideal for application where injuries must be treated quickly and simply.

Phetam is a very safe product for smaller wounds. A doctor should however always be visited in the case of doubt. Phetam is produced with food colouring (Lutetia Cyanne) and therefore safe in food applications. Phetam is resistant to water, grease and oil.

Phetam is ideal for: Workshops and building sites, Industry and workshops, Household, Sport clubs and offices etc.

INDUSTRIAL High-Risk FIRST AID KIT

Aztec Chemicals

Ideal in high risk workplaces where high performance tools are used, such as chainsaws and cutting tools, ie local authorities and golf club ground staff, building sites etc.

An absolute necessity where there is a risk of high blood loss. Includes High Absorbency Pads and Sterile Wound Dressings.

Emergency Eyewash Station

Aztec Chemicals

Eye Care

Our emergency eye wash cabinets and stations can help to ensure that the risk of permanent damage caused by eye injuries is significantly reduced.

Eye Wash Station E410: ask for details.

Citrus Hand Cleanser

SEVILLE

Aztec Chemicals

Product available in: **3 Litre
Tub and 5 Litre Bucket**

Seville has been developed for use in areas where a maximum action hand cleaner is required, yet at the same time remaining kind to the skin. Seville is a blend of surfactants, emulsifiers and sanitisers, combined with a skin kind emollient and fine graded polypropylene granules. Seville is designed to gently abrade the skin surface without causing irritation, having the added advantage of natural orange oils which cleanse the skin leaving it pleasantly perfumed. Seville is effective on tar, printers ink, paint and many other types of soiling. Seville is ideal for use in garages, machine shops, print rooms, or wherever a high powered hand cleaner is required. It may also be used in canteens and washrooms. Seville is blended into a water soluble paste which will not clog drains or sink traps. A pump dispenser and wall mounting bracket are available separately.

SWYPES

Heavy Duty Hand Wipes

Aztec Chemicals

Product available in:
100 wipe container

Swypes are impregnated hand cleaning wipes coated with a mildly abrasive layer, formulated for use without the need for water.

Swypes contain a solution of mild natural degreasers, skin kind emollients, and an added skin conditioner and moisturiser. Swypes are suitable for the removal of most industrial and domestic soiling such as; adhesive, dirt, grease, ink, oil, sealant, tar, wax and paint. Swypes are packed in a convenient pop up dispenser which seals the moisture in for future use.

INDEX

Aztec Chemicals

Lithium Ep2 Grease

Index is a lithium grease containing a high pressure additive for heavy load and shock resistance. Index is heat stable from -30°C up to +130°C, effectively meeting all leading bearing manufacturers standards. Index is ideal for use on high pressure work and quarry conveyors, bearings, tracks, rams, and heavy plant of all types. Index contains additives which are resistant to oxidation, hot water and steam, preventing removal of the lubricants from crucial bearings during cleaning.

Product available in:

400g cartridge

12.5kg bucket

Customer Services: 01270 655500 Fax: 01270 655501 E-mail: info@aztecchemicals.com www.aztecchemicals.com

GREEN CLEAR

Aztec Chemicals

REMOVES ORGANIC GREEN GROWTH

Removes all types of active mildew, lichens, organic green growth, algae etc from brick, stone, roof tiles, corrugated iron, lead, built up felt, concrete, wood, tarmac, painted surfaces, decking, garden furniture, paviours, plastic and glass. Can also be used on fabric awnings (check for colour fastness first). Can be applied internally and externally.

FLEETSAFE

Fleetwash Detergent

Aztec Chemicals

Product available in:
15 Litre Container
210 Litre Drum

Fleetsafe is a safe and economical vehicle cleaning solution which is designed to remove heavy soiling and traffic film from commercial and passenger vehicles. Fleetsafe is safe to use on all vehicle surfaces including glass, curtain walls, rubber components, coach work and chassis. Fleetsafe is suitable for use by hand or through steam cleaning machines, being capable of dilution at up to 50-1 with water. Fleetsafe is suitable for use by haulage companies, bus and coach operators, plant hire companies and applications that require a heavy duty cleaner on a regular basis.

Maintenance Absorbents

Aztec Chemicals

SAF 001 Absorbent Granules

Safe soak is a recycled cellulose granulate which has been modified to be a fire retardant, conforming to BS 476 Part 7: 1987. Safe soak is suitable for absorbing light oils and aqueous liquids (non aggressive chemicals) in such areas as factory floors, workshops, engineering & maintenance, fuel depots and paint stores. Use directly from bag or spill container as a loose absorbent. Ideally pour around the perimeter of the spilt liquid to contain the spill. Safe soak is capable of dealing with most weak acids and alkalis but it should not be used on concentrations above 15%. Distribute more product across the surface area and work into the spill and allow a few minutes for absorption. Sweep up and dispose in an environmentally acceptable manner.

Preformed Surface Dressing

Aztec Chemicals

Use on:
Footways
Foot-ramps
Footbridges
Platforms
Pedestrian subways

Preformed Surface Dressing is a ready to use hard wearing skid resistant surface for pedestrian trafficked areas. It comprises a high performance polymer modified bituminous binder and a layer of skid resistant calcined bauxite chippings strengthened by an integral mesh. Preformed can be used on most surfaces, including wood, concrete, asphalt and steel.

Surfaces must be dry, clean and free from dust, oil and fuel spillage. CP Primer should be used to enhance initial adhesion on all surfaces.

Imola Micro-foam Nitrile Gloves

Aztec Chemicals

Size	Code
8	DR300/08
9	DR300/09
10	DR300/10

Imola® is a drivers style glove made with a full micro-foam nitrile coating and a soft fleece lining. Imola® is unique in that it has the look and style of a conventional leather drivers glove but is considerably lighter in weight, more flexible and more competitively priced. It is made with 360° micro-foam coating that is lined with a soft fleece which keeps the hands warm and comfortable. The Micro-foam shell is consistently thinner and more flexible than traditional foam nitrile yet offers improved mechanical properties, delivering excellent abrasion resistance, for optimum durability and longevity. It also provides a superb grip, in particular, it excels in wet conditions as it channels liquids away from the glove surface. The adjustable Velcro wrist strap provides a secure fit and helps to keep the hands free from dust and debris.
