EVOLite® Wheel Ratchet Helmet White - Vented

Stock Items - White & Yellow (Minimum Order Quantity): 1
All other colours (Minimum Order Quantity): 10

EVOLite® EN397 Industrial Safety Helmet

The EVOLite® is a breakthrough product enabling Health and Safety Officers to achieve new levels of compliance due to its unrivalled comfort. It is lightweight, extremely comfortable and fits the widest range of head shapes and sizes. The harness and shell are truly integrated as one to give the best performance by keeping it firmly rooted on the head, even when fully inverted. Gives added security and protection when working at height, in high winds, or when there is a high degree of activity, such as during motorway maintenance.

Lightweight Shell

Weighing less than 300g (dependent on model), the EVOLite® is the lightest safety helmet for sale in the UK.

Supreme Comfort

A 6-point terylene cradle harness system offers unrivalled comfort without compromising performance.

Chamlon™ Sweatband

Egyptian cotton core with porous PU coating for maximum sweat absorption. PH neutral, dermatologically tested.

3D Precision Fitting

Never before has such a precise fit been attainable on an industrial safety helmet, using the unique 1-2-3 point harness depth settings.

Adjustment

Revolution® Wheel Ratchet.

Availability

In the following colours;

Red, Orange, Blue, Green, Yellow,
White.

EVO®3 OneTouch Slip Ratchet Helmet Yellow - Vented

Stock Items - White & Yellow (Minimum Order Quantity): 1
All other colours (Minimum Order Quantity): 10

EVO®3 Industrial Safety Helmet

The EVO®3 Comfort Plus™ helmet combines a super strong shell for superior all day protection in the widest range of environments, with the comfort benefits of the new Evolution® 3D Adjustment™ harness system. EVO®3 is a true evolution of the long established MK2® and Mk3® helmets, which were first launched in the 1970's, the EVO®3 retains the JSP signature styling while incorporating developments first seen in the EVO®8. Packed full of the latest protection technology and features such as the Evolution® 3D Adjustment™ harness system, Revolution® Wheel Ratchet or the unique OneTouch™ Slip Ratchet, which can be adjusted using one hand in a single swift movement.

Tough HDPE shell

In tests the EVO®3 proved far tougher than the EN397 standard required and far tougher than any of it's competitors.

Supreme Comfort

A 6-point terylene cradle harness system offers unrivalled comfort without compromising performance.

Chamlon™ Sweatband

Egyptian cotton core with porous PU coating for maximum sweat absorption. PH neutral, dermatologically tested.

3D Precision Fitting

Never before has such a precise fit been attainable on an industrial safety helmet, using the unique 1-2-3 point harness depth settings.

Adjustment

OneTouch™ Slip Ratchet.

Availability

In the following colours;

Red, Orange, Blue, Green, White,
Yellow, Black.

EVO®2 Safety Helmet with Slip Ratchet Pink - Vented

Stock Items - White & Yellow (Minimum Order Quantity): 1
All other colours (Minimum Order Quantity): 10

EVO2® Industrial Safety Helmet

The EVO2® Comfort Plus™ helmet combines a super strong shell for superior all day protection in the widest range of environments, with the comfort benefits of the new Evolution® 3D Adjustment™ harness system. EVO2® is a true evolution of the long established MK2® and Mk3® helmets, which were first launched in the 1970's, the EVO2® retains the JSP signature styling while incorporating developments first seen in the EVO®8. Packed full of the latest protection technology and features such as the Evolution® 3D Adjustment™ harness system, Revolution® Wheel Ratchet or the unique OneTouch™ Slip Ratchet, which can be adjusted using one hand in a single swift movement.

Tough HDPE shell

In tests the EVO2® proved far tougher than the EN397 standard required and far tougher than any of it's competitors.

Supreme Comfort

A 6-point polyethylene cradle harness system offers unrivalled comfort without compromising performance.

Chamlon™ Sweatband

Egyptian cotton core with porous PU coating for maximum sweat absorption. PH neutral, dermatologically tested.

3D Precision Fitting

Never before has such a precise fit been attainable on an industrial safety helmet, using the unique 1-2-3 point harness depth settings.

Red, Orange, Blue, Green, White,
Yellow, Pink.

HardCap Aerolite® 5cm Short Peak

Available in Black **Stock Item (Minimum Order Quantity): 1**
Navy **Stock Item (Minimum Order Quantity): 1**

HardCap AeroLite®

OUR LIGHTEST FULL SHELL BUMPCAP

The new HardCap AeroLite® is the lightest full shell bumpcap available on the market.

A direct Evolution of the ever popular HardCap A1+™, the HardCap AeroLite® represents the forefront of innovation within the JSP® head protection range, providing complete protection in its category by meeting the requirements of the EN812:2012 BSI® Standard.

Developed and refined by JSP® Ltd. 's in-house Research and Development department the HardCap AeroLite® weighs less than 135g without compromising on performance. Consistently passing and exceeding the required impact tests the HardCap AeroLite® is the best performing lightweight bump cap on the market.

Benefits and Features

Cool airflow

The HardCap AeroLite® is arguably the coolest bump cap on the market providing better air flow than the HardCap A1+™ and all of its competitors.

Completely lightweight

Weighing less than 135g without compromising safety HardCap AeroLite® is made using a lightweight EPP (Expanded Polypropylene) impact liner combined with a tough HDPE shell. All wrapped in a lightweight baseball style outer cap.

Clean Odourless

Both the sweatband and comfort liner have been coated with **Polygiene®**, an anti-bacterial treatment that acts as an internal deodorant counteracting the development of unpleasant odours. Thanks to its hygienic function it effectively prevents bacterial proliferation by increasing freshness and comfort of the fabric in contact with skin greatly reducing the risk of contact dermatitis. **Polygiene®** has a UK Class 1 medical certificate and offers a life-time guarantee for odour control.

Quick drying

The integrated sweatband is designed to be moisture wicking allowing liquids to spread out across the fabric increasing the rate of evaporation.

Side reflection

Large reflective panels feature on the side of the HardCap AeroLite® adding product and user visibility.

Repels water

To add increased resistance to staining the stylish baseball cap outer lining has been treated with a DWR (Durable Water Repellent) coating that allows water to bead and roll off of the cap.

Available in Black and Navy

Hardcap A1 + 5cm Short Peak

MOQ (Minimum Order Quantity): 20

Available as shown in:

Red, Black, Hi-Vis Yellow, Hi-Vis Orange, Navy, Black/Grey, Blue Yellow, Grey/Red, Navy/Yellow, Black/Hi-Vis Orange

Hardcap A1 + TM Bump Cap

The new HardCap A1 + TM is another major innovation from JSP in head protection design. Designed to exceed the most recent standards, EN812:2012, years of thought and design iterations have been undertaken to develop a product that is unrivalled in both performance and style. Sleek and low profile, it's almost impossible to distinguish from a standard 'high street' baseball cap.

The unique angled adjuster designed to fit under the occipital bone at the rear of the skull means that one size really does fit all, particularly when combined with the castellated protective liner. The liner is removable, therefore the cap part is machine-washable for hygiene purposes. It has a terry towelling sweatband for added comfort and all colourways have subtle reflective piping for added visibility safety.

Reflective Piping

Reflective piping on all models adds extra visibility and therefore safety in all working environments.

Ventilation

Extra holes in the liner plus the two mesh panels on the outer mean added ventilation for coolness and comfort.

Unique Adjuster

Unique one-handed angled adjuster to quickly fit, giving true one size fits all. Sizing ranges from 53cm to 63cm headsize.

All Round Protection

The protective liner is removable, so the outer cap is fully washable for hygiene purposes and extended life cycle.

Sweat Band

Terry towelling sweatband adds comfort and absorption for the wearer.

Low Profile Design

Ultra sleek low profile design means the HardCap A1 + TM is almost indistinguishable from a high street 'fashion' baseball cap.

Hi-Visibility

Available in Hi-visibility orange and yellow, great for low light environments.

Surefit Thermal Helmet Liner

Surefit™ Thermal Helmet Liner

The SureFit™ Thermal Helmet Liner is fully approved to be worn with all JSP EVO® Safety Helmets. It prevents workers from wearing incompatible and dangerous alternatives such as hoodies underneath their helmets. It provides all day comfort and warmth.

Thermal insulation

The SureFit™ Thermal Helmet Liner provides the wearer with warmth and protection from cold environments. The deep edges are designed to cover the entire ear.

Fully compatible

The SureFit™ Thermal Helmet Liner is compatible with all JSP safety helmets. The stretchy material it is suitable for all head sizes and provides a nice tight fit for minimal interference and maximum comfort and warmth.

Convenient & Hygienic

The SureFit™ Thermal Helmet Liner is lightweight for all day comfort and is also machine washable at 30°C for hygiene purposes.

MOQ (Minimum Order Quantity): 10

Cold Weather Safety Helmet Comforter

MOQ (Minimum Order Quantity): 10

Full head comforter easily attached to the helmet harness for comfort and warmth.

Available for MK7® / EVOLite™ / EVO2® / EVO3® / EVO8®

Available for MK7® / EVOLite™ / EV02® / EV03® / EV08®
MOQ (Minimum Order Quantity): 10

Cold Weather Helmet Warmer - Black

Full head & face comforter easily attached to the helmet harness for comfort and warmth.

Available for MK7® / EVOLite™ / EV02® / EV03® / EV08®
MOQ (Minimum Order Quantity): 10

Hi-Vis Neck Cape with UPF50 Sun Protection

MOQ (Minimum Order Quantity): 10

The Hi-Visibility provides the wearer with protection from the elements. Firstly the neck cape offers UV50 protection from the sun's rays when working in hot open environments. As well as providing protection from the sun the cape is also waterproof preventing liquids from entering the inside of clothing down the back of the neck. The neck cape is also great for keeping dust out.

The neck cape is compatible all JSP Mk Evolution® safety helmets and the Hardcap A1 +™

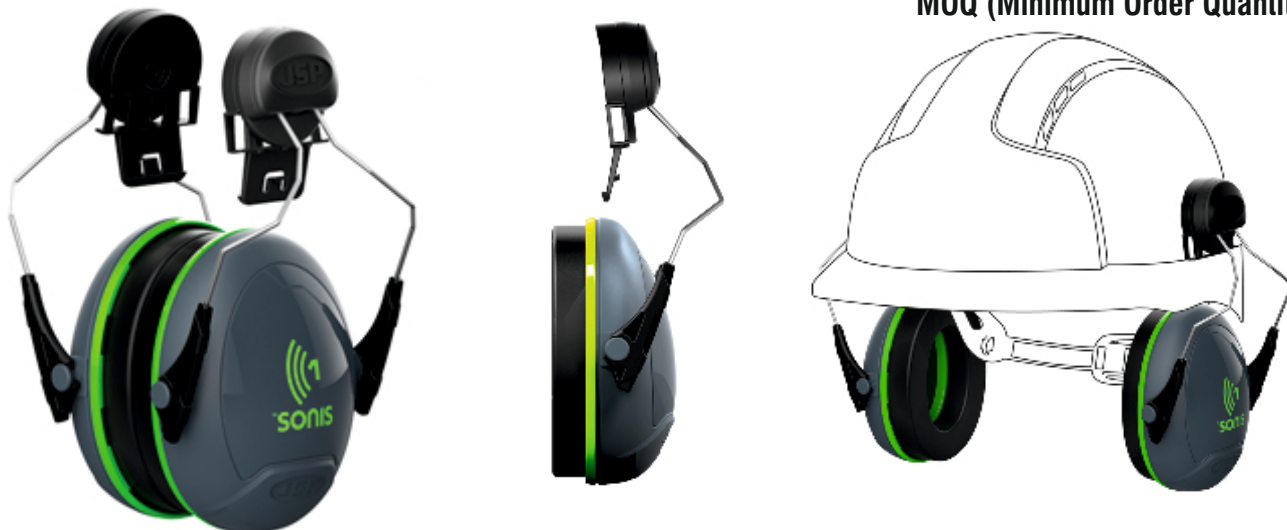

PERSONAL PROTECTIVE EQUIPMENT

REUSABLE RESPIRATORY

Force 8 Half-Mask (Mask only- NO FILTERS)

MOQ (Minimum Order Quantity): 10

AVAILABLE IN:
SMALL
MEDIUM
LARGE

Force™ 8 Half Mask with Typhoon™ Valve without Twin Cartridges

The Force™ 8 twin cartridge half mask with Typhoon™ valve offers superior low breathing resistance and a 4-point suspension harness with quick release buckles. The mask is made with a durable thermoplastic rubber offering a superior fit to most face shapes. The mask accepts the full range of low profile Force™ 8 filters giving the Force™ 8 the flexibility to be used for many applications, providing filtering protection against particulates, many gases and vapours.

Comfort

Durable thermoplastic rubber mask for superior fit to most face shapes.

Harness

Fully adjustable 4-point cradle suspension ensuring an effective facial fit.

CR2™ Reflectivity

Reflective strips create increased visibility in low-light environments for added safety.

Typhoon™ Exhalation Valve

Low resistance exhalation valve for easy breathing, with stable mask configuration.

Force™ Filters

Cost effective Force™ 8 filters available with low profile angle for minimum visual impairment.

Comformity

Conforms to EN140 (Face piece), EN14387:2004 (Filter performance), EN143:200 (Filter performance)

Force 8 Belt Bag (Holds mask & Filters)

MOQ (Minimum Order Quantity): 10

Make sure your Force 8™ Half-mask is always on hand and protected with this convenient belt bag. This robust bag is secured with a wide comfortable strap and string clip. The main compartment allows for the storage of the Force 8 half-mask without the filters attached. Either side of this main compartment are two more compartments suitable for a filter each. This keeps a complete unit safe and clean.

Features & Benefits

Convenience - Force 8™ half-mask always on hand

Clean & Safe - Filters & mask free from dirt & damage when in bag.

Increased lifespan - Product lasts longer when stored safely in belt bag.

Force 8 half mask storage container

Storage box for Force8™ or other PPE.
Dust prevention whilst not in use

Force™ 8 with PressTo Check™ Filters

MOQ (Minimum Order Quantity): 10

FIT IT!

Don the Mask - Put the straps and harness over your head and pull the straps to a suitably tight and comfortable fit.

PRESS IT!

PressToCheck™ - Press the front and backs of both filter covers together to stop air from entering through the filters.

CHECK IT!

Inhale - No air should come through the mask. Adjust the mask and repeat until it doesn't. Release when seal is made.

Features & benefits

- Daily Face Fit Reassurance
- Passes dolomite
- Protection against construction dust
- Improved hygiene
- Inhalation valve for easy maintenance
- Low profile covers protect filters
- Conforms to EN143

PERSONAL PROTECTIVE EQUIPMENT

DISPOSABLE RESPIRATORY

Disposable Moulded Mask FFP1 (111) Box of 20

Stock Item (Minimum Order Quantity): 1

Moulded Disposable Mask FFP1 – 111

This “shaped to fit” quality range of moulded disposable masks are available in Small, Medium and Large sizes. The valve products increase user comfort by lowering CO₂ and heat build-up. Class 1 efficiency (80% minimum) for low risk hazards where a protection factor up to 4 is required. Conforms to EN149:2001 + A1:2009.

Disposable Moulded Mask FFP2 Valved (122) Box of 10

Stock Item (Minimum Order Quantity): 1

Moulded Disposable Mask FFP2 - 122 Valved

This “shaped to fit” quality range of moulded disposable masks are available in Small, Medium and Large sizes. The valve products increase user comfort by lowering CO₂ and heat build-up. Class 2, medium efficiency (94%) with a protection factor of 10. With exhalation valve to increase comfort. Conforms to EN149:2001 + A1:2009.

Disposable Moulded Mask FFP3 Valved (132) Box of 5

Stock Item (Minimum Order Quantity): 1

Moulded Disposable Mask FFP3 - 132 Valved Medium

This “shaped to fit” quality range of moulded disposable masks are available in Small, Medium and Large sizes. The valve products increase user comfort by lowering CO₂ and heat build-up. Class 3, high efficiency (99%) with a protection factor of 20. With exhalation valve to increase comfort. Conforms to EN149:2001 + A1:2009

SPRINGFIT™ RANGE

Available in FFP3 and FFP2 valved and unvalved, with a nuisance odour carbon layer available on the FFP3 model.

INTEGRATED STRUCTURAL COMFORT

The SpringFit™ fold flat disposable mask achieves an unrivalled secure fit with the use of a unique endoskeleton structure. SpringFit™ introduces an abundance of features that maximise fit, comfort, compatibility and performance. Conforms to: En149

ENDOSKELETON

The internal skeleton frame guarantees that each mask keeps its shape, increasing performance and maintaining rigidity. The integrated spring feature absorbs facial movements ensuring a secure face fit and seal.

COMPATIBILITY AND VISION

The low profile design of the SpringFit™ provides exceptional compatibility with other above the neck PPE, such as eyewear. The low profile also offers an improved field of vision for the wearer.

COMFORT

The welded nose piece gives a tighter fit and minimises irritation. The adjustable strap means that SpringFit™ can be fitted comfortably to all head sizes and shapes. A foam area around the inside of the mask provides a comfortable fit.

COMPACT

The fold-flat design makes SpringFit™ more compact, and easily pocketed. SpringFit™ is also individually packed to ensure a high level of hygiene.

TYPHOON™ EXHALATION VALVE

The unique Typhoon™ valve has been designed to reduce breathing resistance, heat and moisture build-up. The valve is unaffected by any moisture, and therefore can be used with the same performance under very low temperatures (-40°C tested).

DEMARCATATION

Titan® Expander Barrier 3M Red/White

MOQ (Minimum Order Quantity): 1

Recommended Applications include: Hotels & Resorts, Department Stores, Leisure Centres, Cinema Foyers, Schools & Colleges, Hospitals, Railway Stations, Garage Forecourts, Air & Sea Ports, Industry, Maintenance & Factory Locations.

Compact

When closed the Titan® Expander Barrier is just 550mm which makes it extremely practical for transporting and carrying around.

Flexibility

Expanding action gives user length flexibility fixed-length barriers systems do not have.

Compatibility

The Titan® Expander can conveniently link to JSP's Titan®, Barricader™ and Citadel™ Barriers.

Feet Options

Two feet options available; the standard foot and the New Anti-trip Foot design, painted in a high visibility yellow and featuring two reflectors per foot for extra visibility in low light situations.

Lightweight

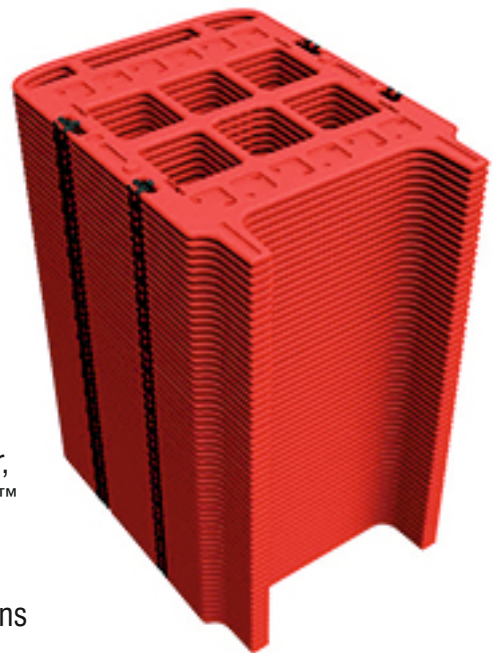

Overall weight of 10.5kg means it is light enough to handle with relative ease but stable enough to hold itself upright in windy conditions, rough ground or hustle and bustle from the public.

Unique Clip

Unique design of clip means that when barrier is closed it is held together for ease of transport and the it can also be used to connect multiple systems together when extended.

Portagate 3 Gate Compact Barrier

MOQ (Minimum Order Quantity): 1

Portagate™ Compact Barrier Gate System

The Portagate™ is a blow moulded high density polyethylene barrier, supplied as a 3 or 4 gate system. Light and compact, the Portagate™ is designed to meet communications industry requirements and enables increased quantities per vehicle.

Configurations - Adjoining clips allow multi-positioning configurations to be formed such as a triangle, a square or a single line.

Firm hold - By sliding the top hinge clip down panels can be locked securely into formations.

Added stability - Designed to accept anti-trip feet for increase stability.

Temporary signage - Recesses are included for toggle mounted courtesy signs to enable the system to be fully closed with the signs still attached.

Reflective panels - Class R1 reflective panels which are 20% more reflective than standard lower grade reflective material conforming to BS 8442.

Stackable - Can be stacked in any 180° orientation to a height of 20 units for 4 gate systems and 25 for 3 gate systems.

Foot for Portagate or Workgate Barrier

MOQ (Minimum Order Quantity): 1
